SUMMARY

CMO with a builder's stack. I own the GTM engine end-to-end — brand, content, prospecting, and inbound conversion — while personally shipping the systems that make it run: GoHighLevel funnels, cold email infrastructure, and outbound pipelines. I sit at the intersection of engineering and go-to-market, focused on the metrics that actually move revenue.

EXPERIENCE

Chief Marketing Officer

Mar 2026 — Present

Roxyel — Systems & Deliverability

- Own the GTM engine — brand, content, prospecting, and inbound conversion.
- Built the outbound stack from zero: Apollo and Clay for enrichment, Instantly for cold email delivery, GoHighLevel for CRM and nurture.
- Lead LinkedIn presence — content pillars, cadence, and outreach strategy — driving inbound conversations from a cold start.
- Manage brand voice, positioning, and case-study production across all client-facing surfaces.

Senior Marketing Strategist

Jul 2025 — Mar 2026

Roxyel — Systems & Deliverability

- Designed and shipped GHL funnels, multi-page websites, and automation workflows for agency and service-business clients.
- Ran deliverability audits and rebuilt cold email infrastructure — domains, warm-up, inbox rotation, DNS setup — achieving 60%+ open rates.
- Managed campaign reporting, lead sanitization, and end-to-end data workflows for high-volume outreach.
- Built multi-channel reply-capture workflows routing DMs from Facebook, Instagram, TikTok, SMS, and email into a unified pipeline.

Freelance B2B Lead Generation & Deliverability Specialist

2023 — 2025

Independent — International Clients

- Executed cold email and outbound campaigns for clients across SaaS, financial services, real estate, and sustainable packaging.
- Configured complex GoHighLevel architectures — smart lists, pipelines, merge-tag fixes, and deliverability troubleshooting.
- Built B2B prospecting pipelines using Apollo, Clay, Dripify, and PropStream — targeting fractional executives, financial advisors, and international buyers.
- Ran campaign management for outbound targeting fractional executives and financial advisors in the US market.

Founder

2022 — 2024

UniHelpDesk — Academic Support Platform

- Founded and launched an academic support web platform for university students — assignments, resumes, and presentations.
- Built the full digital stack: site copy, Google Analytics integration, SEO, marketing assets, and content workflow.
- Managed end-to-end operations from acquisition to delivery — early exposure to the systems that later became the day job.
